

This Remix of the Eurythmics' more-than-memorable MEGA-hit staple of the 1983 "New Wave" scene  
[Hm... **one year before my birth...**] Sweet Dreams  
Is mu'h current "Remix Pride and Joy!" ^\_^

What started as an 'original' song built off an awesome 'Retro-track-sample' so kindly 'danced along to  
the tune of a remix' that the decision for this remix was actually AFTER I was nearly complete with the  
initial track!

The 'Little Image Collage' to the left there is of an anime that I have not yet seen [**but am interested to**]  
that caught my eye and just 'looked' how this remix to me sounded.

And so... Here it is:

Sweet Dreams (TIGER M のO Yumemiru Remix! ^^)  
[O Yumemiru means "**To Dream**" in Japanese in case you are curious =)].

Download and enjoy (or don't! ^^);

By the way--the "Blaring Volume" in the bridge-transition IS indeed intentional thank you much. ^^  
Had a "Trent Reznor" [**Nine Inch Nails**] moment during this production, And simply decided to let the  
'energies' and 'frequencies' 'Fly-off-the-chart!' ^\_^

Love it or Hate it...  
Screw it or masturbate it... O.O;

What tha' fu--! \*Explosion\*
