

Several factors contributed to this remix.

The passing of my kind and beloved grandmother Beulah Ellex and the attending of her Funeral on February morning on the 14th of this year [2009] greatly impacted me.

Informed that I lost yet another life-long friend the very next day
(to injury thus far—no report of death yet. Although ‘critical condition’ is the prognosis...)
Pressed me to further be inspired and ponder a bit on the subject of 'Our Creator's Fantasy:'
What we know as "Reality" and "Existence."

Since I create my own characters [only through inspiration from that which so generously created me]
I often wonder if indeed...

Our ‘Grandmaster’ [God] would ever desire to visit Us beyond being ‘All’ and 'Everything.'
I don't believe God as a ‘Specific Gender’ as some choose to believe
[and of them I think not **negatively**].

Upon viewing my grandmother's smiling physical shell in that casket... I began to wonder...
Quite possibly like in the old 8-bit Konami Sports Video Game "**Blades of Steel**" for the original NES
(Nintendo Entertainment System. "**Blades of Steel**" is the only 'Sports Game' I really like thus far... ^^;)

Maybe... just maybe... (Especially since it is generally accepted that “God” is well—“All-That-Is” anyway! ^^)

At Our Creator's ‘Ultimate Free Will’ being capable of *all* and *anything*...
Quite possibly can ‘Switch Bodies’ at any given time—rule-free.

People speak of ‘**Demon Possession**’ and ‘**Angels In The Flesh**.’
I think to myself, “Why would Our Creator...
The very ‘**Grandmaster of All**’ [GoA!] who created “**Demons & Angels**” [← Looking Forward To The Movie! =D]
Not God's Self select a character as desired in this ‘Fantasy Fun Role-Play of Our Creator’ we ‘Players’
[People, Plants, Animals—rocks, minerals, elements, winds, waters, etc.] know as “Existence” or Reality?

And so this song... a song I only *first heard in AUSTIN POWERS: The Spy Who Shagged Me*
(Yes... when **Doctor Evil sang it with the baddies/bad-girls&bad-guys!** XDD)—suddenly came to mind.

I have the song on Rushuna-Haruhi's hard drive now, and for the first time in about a year... was inspired
to revisit it... after... you may not believe this—showing **AMV Hell 4: The Last One**. [← or so it is said...] to
a friend of mine and for the first time... the short—like 3 second skit... the one with **Haruhi Suzumiya**
leading **Yuki Nagato, Mikuru Asahina, Itsuki Koizumi, Kyon & Crew** through the “**Hare Hare Yukai**”
dance allegedly [← Keyword... ^^;] “singing” Joan Osborn's version of “If God Was One of Us.”

It hit me for the first time [after 4 and a half hour's sleep].
I awoke—and couldn't put the scene from my head!

I began laughing. Laughing. Just laughing.

I couldn't stop laughing! XDD

After having watched **AMV Hell 4: The Last One** [← or so it is said...] now 4 or so times [I almost *never* watch anything repeatedly besides **Walt Disney's "Alice In Wonderland," "The Lion King"** and **Hediki Anno's "Neon Genesis Evangelion"** O.O;]—I must say... out of all of the awesome wit and humor throughout that series [including the **"Misa Mouth Cover Up"** 'Give it to me but don't give it away...' **Now I can't stop laughing while thinking about that scene! XDD**]—the "What If God Was One of Us" 3 second **"The Melancholy of Haruhi Suzumiya"** skit was the most impressive of the full near-two-hour film! ^_^ [Now I can't stop thinking of the **"Full Metal Alchemist" "Child Molester" scene! XDD GOSH that is a very good film! ^^**]

Not only does it sum up the whole of the spectacular 14 episodes of **"The Melancholy of..."** but also sums up the persona, character and **'Placement'** of the character **"...Haruhi Suzumiya"** in less than 5-seconds! XDD

WAY TO GO WHOEVER DID THAT ONE! XDD

And so... this remix was thus inspired.

Sincerely, I get a lot of bullshit and **C&C Red Alert 2** Russian **Red & Black Flak** [Yummy! XDD] from places like **Newgrounds.com** and **Bemanstyle.com** [Well... used to] regarding my music.

Truthfully though, **Love&Passion [My Purpose]** comes first.
Only then does 'Pleasing [the envious]' and 'The Public Eye.'

With that said—enjoy the remix! ^_^

Or don't...

But don't come to me when **Haruhi Suzumiya** goes to wishing you an ill Fate! XDD

Seriously though gals-and-guys [and **hermaphrodites** alike! =D]

Thanks for the support and kindness! ^_^
Take care, and stay cool! ^~*

"What if God were one of us..."

[Heheh! ^^; Go Joan Osborn! =D Thought provoking Song. ^_^]
