Heya! ^\_^

No need to view this vid if you're a U.S. President Bush Supporter  
(Or anti Barack Obama for that matter ^^);

With inauguration swiftly coming up,  
Felt compelled to share with existence  
A video piece sharing my feelings of these unique times.

This is not exactly a 'bush stomp'  
[not exactly... but quite obviously... it is. ^^;]

Every woman, man and living thing exists for good reason.

The 'burning' is a representation of 'The flames of transition'  
from one point of time in the **U.S.A.** [that is, the last 8 years]  
To a new more innovative time where two cultures that were  
Once at war [North America & Japan] are sharing values;

And an economic shift [the most strenuous since the great depression]  
Is highlighted by a dual-historical first  
[The first 'Twin-Racial' President of 'The United States of (North)America' as well as reaching a point in  
history now-known as 'The Last Year of The First Decade of The [prophesized] 'New Millennium.'

By the way, we were all supposed to be dead by now according to Nostradamus. Thank 'gosh!' ONE of  
his "10%-inaccurate predictions' was 'The End of The World In 2000!' XDD  
(Or you wouldn't be reading this or watching this vid...  
And I wouldn't be writing or making it either! XDD  
At least not in THIS world! ^^;)

Now if we can only out-live the "Mayan Prophecy..." ^^;

Enjoy (or loathe! XDD) the upload vid! ^\_^

Take care & Exist With Purpose in these innovative times! =)

Peace & Tranquility...

Ommmmmmmm...
